C

The first time I saw Kai, she was sitting in my front yard, hugging my dog Harley. She and her husband Sean had just moved into a small house down the road from us. I think she thought Harley was friendly, just as Harley thought. From the second I talked to her, I knew Kai would be a very good friend. Her smile and kindness made me feel better just being around her. Her voice was always full of happiness.

It didn't take long before Kai was beloved by everyone in our neighborhood. Children and adults visited her home often. Although she already had four cats, she also adopted a homeless dog.

When we visited her, she would kindly listen to all of our troubles and then say something so wise that we would leave her home with our hearts singing. Sometimes I would read her my stories and she would always encourage me to keep writing.

All of this time, though, Kai was slowly dying from cancer. She told me the first time we talked that she didn't have much time left. But she lived each day with such cheer that I often forgot just how ill she was. Still, she died on a cold winter day with heavy snow falling down.

During the short time we had together, I learned so much from Kai about how to truly live. She taught us so many lessons about kindness, happiness, hope and cheer.

79. What was Kai like?

- A. She was quiet. B. She was a good listener.
C. She was honest. D. She had a sense of humor.

80. What happened to Kai after she moved to the new neighborhood?

- A. She couldn't get along with her neighbors.
B. She made friends with both kids and adults.
C. She adopted the writer's dog.
D. She was told that she had cancer.

81. People left Kai's home with their hearts singing because ____.

- A. Kai taught them how to sing
- B. they didn't know Kai was suffering from cancer
- C. Kai told them inspiring stories
- D. Kai listened to them and gave good advice

82. What did Kai teach the author?

- A. How to stay healthy.
- B. How to care for pets.
- C. How to be kind and truly live.
- D. How to give good advice.

D

October 1st this year is the 70th birthday of the People's Republic of China. The country has made progress in improving its economy (经济), technology and education.

With National Day coming soon, we have invited several teenagers to share their thoughts about New China. I was proud when I watched the military parade (阅兵) on TV. In one class, our teacher played a video about Chinese soldiers who were sent to Somalia to fight pirates. Our well-trained navy (海军) never gave in and fought hard to protect overseas Chinese. Though a large gap still exists between the Chinese and US navies, I hope that one day we will have more nuclear submarines (核潜艇) to protect us at sea. I will exercise more and protect my

eyesight because I also want to protect my country. (Zhang Xiyuan, 13, Changzhou Foreign Languages School, JIANGSU)

A few months ago, our school visited the Beijing International Horticultural Exhibition (世园会). I was impressed by the 5G exhibition hall there. This technology developed by tech giant Huawei makes video downloads fast. I found a robot with sensors (感应器) in all parts of its body. With the help of 5G information transmission (信息传输), the robot can do the same things people do quite in time. 5G will make the Internet of Things possible. I actively take part in robotic competitions like VEX and I hope I can make creative products like 5G one day. (Yu Mingke, 13, Beijing Chenjinglun High

School)

83. When is the 70th birthday of People's Republic of China?

- A. October 1st, 2018
- B. October 1st, 2019
- C. October 1st, 2020
- D. October 1st, 2021

84. What can the 5G technology help people to do?

- A. It helps make video downloads fast
- B. It helps the robot do the same things people do quite in time
- C. It will make the Internet of Things possible.
- D. All the above.

85. Where does Yu Mingke come from?

- A. Changzhou Foreign Languages School
- B. Beijing Foreign Language School
- C. Beijing Chenjinglun High School
- D. The Beijing International Horticultural Exhibition

86. What does Zhang Xiyuan want to do in the future?

- A. He wants to share their thoughts about New China.
- B. He wants to watch the military parade on TV
- C. He hopes to make creative products like 5G one day.
- D. He wants to exercise more and protect the country.

87. Which do you think is the best title of the passage?

- A. Thinking About Our Country B. The 70th Birthday of Our Country
C. My Beloved Homeland D. The Country Has Made Progress
E

In the 13th century, the famous Italian traveler Marco Polo travelled a long way to China. During his stay in China, he saw many wonderful things. One of the things he discovered was that Chinese people used paper money. In western countries, people did not use paper money until the 15th century. However, people in China began to use paper money in the 7th century.

A Chinese man called Cai Lun invented paper 2,000 years ago. He made it from wood. He took the wood from trees and made it into paper. He then put these pieces of paper together and made them into a book.

Now paper still comes from trees. We use a lot of paper every day. If we keep on wasting paper, there will not be any trees left on Earth. If there are no trees, there will be no paper. Every day, people throw away about 2,800 tons (吨) of paper. It takes 17 trees to make a ton of paper. This means that we are cutting nearly 48,000 trees every day. It takes more than 10 years for a tree to grow.

So how can we save paper? We can use both sides of every piece of paper, especially when we are taking notes. We can choose drinks in bottles instead of those in paper packets. We can also use cotton handkerchiefs (手帕) and not paper ones. When we go shopping, we can use fewer paper bags. If the shop assistant does give us a paper bag, we can save it and reuse it later.

88. When did the western countries start to use paper money? (不超过 15 词)

89. Why should we stop wasting paper? (不超过 15 词)

90. How can we save paper according to the passage? (写出文中任意两条建议)
