Last summer I went to one of the world's most famous historical places, the Forbidden City in Beijing, China. It was the home of the emperors of the last two dynasties(朝代) in China, the Ming and Qing Dynasties.

The Forbidden City was built in 1420. The palace has over 10,000 rooms. It was where the emperors dealt with the official business with their ministers.

In Mandarin, The Forbidden City is called the Purple Forbidden City. However, the color of the palace itself is not purple. The color purple stands for power of the great emperors of China. It was so sacred(神圣的) that the commoners could not even dream of ever going in.

The emperors also had some of the largest festival celebrations at the Forbidden City. During Chinese New Year, the emperor would invite all the members of his family and his officials to a banquet. The banquet had a hundred and eight Chinese dishes. It was such an expensive banquet that it could feed a commoner's family for three generations(代).

Right now The Forbidden City is known as a historical site for tourists from all over the world. Everyone can go in there. It is a museum with priceless Chinese antiques(古董) and treasures in it.

I really learned a lot about the Chinese culture and its history from this trip to The Forbidden City. It was like a dream come true to go on the trip and see the things that I have always wanted to see.

Do you always find it is raining when you walk out? Or are you always buying umbrellas and leaving them home when it rains? There is a new umbrella that can solve both problems.

The umbrella will not only tell you the weather, but also let you know you've left it behind. How does it work? The umbrella will send a message to your smart phone. And it says "Hey, it's going to rain in 15 minutes where you are, so you'd better take your umbrella."

Besides, if you are forgetful, you may never leave an umbrella on a bus or somewhere else again. The umbrella will send a warning to your smart phone if you leave it behind. The new umbrella is expected to go on sale soon. Though it is a good idea and it looks pretty cool, the umbrella will cost you \$185. Maybe you will just check the free weather apps (应用程序) on your smart phone and take an umbrella with you when it is going to rain.
