Audio digital books(有声图书) are becoming more and more popular these days. One of the reasons for this is that audio digital books can be “read” in many places comfortably.

The first favorite place of many people is in bed, before going to sleep. Many people like to just lie in bed in the dark before they fall asleep at night. This would be the perfect time to listen to an audio digital book. If you read a usual book, the lights have to be turned on and you have to turn the pages with your hand. An audio book can just be listened to while a person stays comfortably in bed.

The next favorite place to listen to audio digital books would be in the kitchen. For some people, kitchen chores are boring. Audio digital books provide good entertainment, and people don't need to turn pages.

An audio digital book is a favorite while a person is gardening. It can help take a person's mind off the job at hand. It can be fun and exciting to do gardening with the help of the book.

An audio digital book is a favorite while a person is exercising. It allows the mind to be free while the legs, body and arms are kept busy. This would be a great place to listen to these books.

根据短文内容, 判断正(T) 误(F), (5分)

- ( ) 85. The passage is mainly about the advantages of audio digital books.

D.

Lanterns have been a part of Chinese culture for centuries and played an important part in many celebrations. In ancient times, there were mainly three kinds of lanterns.

**Palace lanterns**

86 When making palace lanterns, fine wood was used. The palace lanterns were covered with silk or glass. Different kinds of pictures were drawn on the covers. These lanterns were not only used as lights but also as decorations (装饰) in palaces.

**Gauze lantern (纱灯)**

Less expensive bamboo and gauze were used to cover the lantern. Red gauze was used when making them. 87 So red lanterns are always hung on important festivals such as Lantern Festival, Spring Festival and National Day in parks or along main streets. In some famous Chinatowns abroad, you can see red lanterns all the year round. 88

**Shadow-picture lantern (走马灯)**

It was usually used for amusement, 89 There were two layers (层) of covers and pictures were drawn on the inside layer. When the candle was lit, the heat caused a paper wheel inside the lantern to turn around so that moving pictures appeared on the outside cover.

Now more kinds of lanterns appear in festivals besides the traditional ones. More modern technology is used on making lanterns. 90
