It's hard to make friends if you stay at home alone all the time. Get out of the house and do things that will put you in touch with other people. It's easier to make friends when you have the same interests.

Don't be afraid to show people what you are really good at. Talk about the things you like and do best. People will be interested in you if there is something interesting about you.

Look at people in the eyes when you talk to them. In that way, they will find it easier to talk to you. If don't, people may think you are not interested in them and may stop being interested in you.

Be a good listener. Let people talk about themselves before you talk about "me, me, me". Ask lots of questions. Show interest in their answers.

Try to make friends with the kind of people you really like—not just with those who are easy to meet. Be friendly to others. If so, you will have a bigger group of people to choose from and have more chances(机会) to make friends.
