Dear friends:

Without animals, humans can not live on earth alone. However, the natural environment is being destroyed because of humans' harmful activities, which cause a large decrease of wildlife. Besides, many people hunt wild animals for their meat and money. To make matters worse, in response, the decrease and hunting are harmful to people's life, like the virus.

So, it is necessary for us to take effective measures to protect our environment, such as creating wildlife reserves and passing laws to raise the awareness of wildlife protection. People who do harm to wildlife should be punished.

To protect wildlife is to protect ourselves. The world will be better if people make peace with wildlife, and we can live longer on earth.
