Have you heard of 5G? It is the fifth generation of mobile network technology. If the past few years were about testing and developing of 5G technology, it’s time to show some real applications (应用) this year. What changes will 5G bring to us?

First, 5G promises much faster data download and upload speeds, and more stable connections. This means that you will be able to download an entire HD movie in seconds and only experience a short delay between sending and receiving data. Also, VR games will become more popular with 5G. The short delay of 5G will make the games more real.

This big change will not only make our mobile Internet faster. It will also change every industry like health care in telemedicine and self-driving cars. These cars can send signals to each other. They also “talk” to traffic lights and road sensors (传感器). 5G will show cars to react even faster than human drivers.

5G also makes the Internet of Things (IoT 物联网) possible. IoT is a large network that connects everything to the Internet. Smart homes are part of it. For example, your toaster could automatically (自动地) start making breakfast after your alarm rings.

Though 5G makes our lives more convenient, it will not be perfect. For one thing, 5G will not “travel” far. On 4G networks, we can be 10 kilometers away from the nearest transmission base (传输基地) and barely lost signal. But 5G will only cover about 300 meters, meaning that we will need more transmitters so that we can get signals. And in order to use 5G, we will have to buy new products specifically designed for 5G that are presently expensive.

- () 56. You will be able to download an entire HD movie in seconds because 5G promises _____.
A. slower mobile Internet B. more unstable connections
C. much faster data download and upload speeds D. a long delay between sending and receiving data
- () 57. The examples of the toaster is used to explain the usage of 5G in the area of _____.
A. communication B. transportation C. mobile Internet D. the Internet of Things
- () 58. The underlined word “react” in Paragraph 3 means _____ in Chinese.

- A. 驾驶 B. 反应 C. 思考 D. 行动

() 59. Which of the following is TRUE according to the passage?

- A. 5G technology is in the period of testing this year.
B. Special designed phones for 5G are not expensive at present.
C. Self-driving cars are faster than human drivers with the help of 5G.
D. With the help of 5G, patients can see the doctor through the Internet.

() 60. The best title for this passage would be “_____”.

- A. Future Technology B. The Fastest Generation
C. The advantages of 5G D. 5G Network Is on the Way

六、读写综合（本大题分为 A、B 两部分,共 20 分）

A. 根据短文内容回答问题（共 5 小题，每小题 2 分，共 10 分）

On January 27, in order to win the new pneumonia Resistance War (抗击新型肺炎战), the Ministry of Education issued (公布) a notice on putting off the start time of school in spring 2020. It was said that school should not start before February 17. The exact start time of school will depend on situations and further notices.

However, many parents are very worried that putting off the start of school may affect children's studies. If they have such a long winter vacation, children will not learn any knowledge, read books or study at all. They may forget what they have learned before. Staying at home for a long time will make them keep eating, sleeping and playing, which seriously affect their physical and mental health.

In short, the close of school influences learning and develops bad habits, so how should we avoid these problems? Local education departments have also issued a notice, that is, to organize online teaching and create a network platform (平台), where necessary courses will be shown every day, and online teaching will be given by excellent teachers of the subject, and students can learn at home through computer or mobile network.

It should be said that such a method is very good. It can not only keep students indoors and not worry about the infection (感染) of the disease, but also make them study at home, improve their learning ability, and truly achieve “no suspension of classes”. Both the platform itself and the recorded lesson resources are more useful, and are welcomed by parents and teachers.

Of course, except for learning at home, it is also necessary to teach children about health knowledge, especially how to keep away from touching virus and other knowledge popularization; at the same time, it is also necessary for children to do some physical exercises or some games, which is good for physical health at home.

76. When did the Ministry of Education put off the start time of school in spring 2020?

77. Who worried about putting off the start of school?

78. What are the problems of the close of school ?

79. How can the students have online courses?

80. What should students do at home for their physical health?
