## XI.阅读理解 (30 分)。

### A

Experts say that students usually need eight to ten hours' sleep at night, but most Chinese students do not get enough sleep. Some Chinese parents are usually glad to see their children studying late.They will think their children work very hard, but not all parents are happy about this. Once a mother told us that every morning her 10-year-old boy put up one finger with his eyes still closed, begging(请求) for one more minute to sleep. Like thousands of students "early birds" in China, he has to get up before six every morning.

A report shows that without a good night sleep, students seem to be weaker (虚弱) than they should be. Many students have fallen asleep during class at one time or another. Too much homework is not the only reason why students stay up late. Some watch TV or play the computer games late into the night.

Experts have ever said that the students should develop good study habits. So some clever students never study late, they are able to work well in class.

On June 1, many children have fun because it is Children's Day. But do you know that it is also the World Milk Day? The World Milk Day began on June 1, 2001. People from Germany first started this day.

On that day, people will know more about milk and know why people need milk. Milk is called "the best medicine" because it can help people become healthier and stronger. It can also help people sleep better if they drink milk before they go to sleep. Scientists say that it is a good idea for people to drink 2 cups of milk every day. But you'd better not drink milk together with chocolate and oranges, or you'll feel sick.

Do you drink milk very day? June 1 is coming soon. Let's come up with a plan to celebrate the World Milk Day.

根据短文内容，判断下列句子正（T）误（F）。

- (    )81. Milk is called "he best medicine".
