七、书面表达 (15 分)

The COVID-19 is terrible and dangerous. These days the COVID-19 is spreading quickly around the world. So it's important for us to learn some ways to fight the virus.

First of all, we'd better stay at home. If we have to go out, we are supposed to wear masks. What's more, we should wash our hands.

As you know, we are ninth graders. We will graduate in June. Therefore, we focus on our study. We try our best to teach ourselves in our free time. If we have questions, we can ask the teachers on the QQ or WeChat. There have been many free courses on the Internet. It's good to study online if you choose exactly.

Last but not least, don't forget to take exercise. Although the virus has changed our life a lot, I believe we will win soon.
