Some people think that chicken soup is good for a cold. Others believe that it is unhealthy not to eat meat. The question is, are they right?

Here are some facts.

For centuries, people have believed that chicken soup helps to fight a cold. Now, doctors say it may be true. They think that chicken soup has something that stops a cold from getting worse. Heat from the soup can also make a person feel better.

Many people think that it is unhealthy not to have meat. It is true that meat, especially red meat, has protein(蛋白质)that the body needs. A person who doesn't eat meat can get enough protein and be healthy by eating tofu, eggs, and some vegetables.

A study showed that tea is better than coffee. Tea has something that can protect your heart, fight cancer, and make you less fat. Coffee does not do this.

Many people believe that bread and potatoes can easily make people fat. In fact, bread and potatoes do not have fat in them. But eating too much and not exercising can make people fat. Also, adding things like butter to them can raise the chance of becoming fat.

- ()56. It is helpful to eat some chicken soup to fight a cold.
- ()57. To get enough protein and be healthy, people must eat meat.
- ()58. Protein can be found in tofu, eggs and some vegetables.
