As students, you may have many dreams. They can be very big like becoming Superman, or they can be small. You may just want to become one of the ten best students in your class.

If you find a dream, what do you do with it? Do you ever try to make your dream come true?

Follow Your Heart (心) by Australian writer Andrew Matthews tells us that making our dreams come true is life's biggest **challenge**.

"You may think you're not very good at some school subjects, or that it is impossible (不可能) for you to become a star. These ideas stop you from getting your dream," the book says.

In fact, everyone can make his dream come true. The first important thing you must do is to remember what your dream is.

Don't let it leave your heart. Keep telling yourself what you want. Do this step by step (逐步) and your dream will come true faster. A big dream is, in fact, many small dreams.

Never give up (放弃) your dream. There will be difficulties on the road. But the biggest problem comes from yourself. You need to decide what is the most important. Studying instead of (代替) watching TV will bring you better exam points. Saving ¥5 instead of buying an ice cream means you can buy a new book. When you get closer to your dream, it may change a little. Then you will be able to learn more skills and find new interests.
