Many people like to eat pizza, but not everyone knows how to make it. Making the perfect pizza can be **complicated**, but there are lots of ways for you to make a more basic version at home.

When you make pizza, you must begin with the crust (面包皮). The crust can be hard to make. If you want to make the crust yourself, you will have to make dough (面团) using flour, water, and yeast (酵母). You will have to knead (揉) the dough with your hands. If you do not have enough time to do this, you can use a prepared crust that you buy from the store.

After you have chosen your crust, you must then add the sauce. Making your own sauce can take a long time. You have to buy tomatoes, peel them, and then cook them with spices. If this sounds like too much work, you can also buy jarred sauce from the store. Many jarred sauces taste almost as good as the kind you make at home.

Now that you have your crust and your sauce, you need to add the cheese. Cheese comes from milk, which comes from cows. Do you have a cow in your backyard? Do you know how to milk the cow? Do you know how to turn that milk into cheese? If not, you might want to buy cheese from the grocery store instead of making it yourself.

When you have the crust, sauce, and cheese ready, you can add other toppings (配料). Some people like to put meat on their pizza, while other people like to add vegetables. Some people even like to add pineapple! The best part of making a pizza at home is that you can customize it by adding your own favorite ingredients (原料).

Emmerich is blowing up Washington again in his new movie, *White House Down*. But this time the bad guys are terrorists.

*White House Down* is an action movie, but it also has an emotional side. Between the explosions and other special effects, the film deals with the relationship between the hero and his daughter.

The hero is John Cale, a soldier who served in Afghanistan. He goes to the White House for a job interview for the Secret Service. When a terrorist bomb goes off at the Capitol, the White House goes on lockdown. John is still inside with his daughter Emily. They get separated during all the danger and disorder. John has to save his daughter – and, of course, the president.

Actor Channing Tatum plays John Cale. He needed to be in good shape for the movie, since he was to perform difficult physical scenes. The actor was already known for having a good looking body. Last year, People magazine named Channing Tatum the “Sexiest Man Alive.”

Actor and singer Jamie Foxx plays the President of the United States, James Sawyer. Jamie Foxx says his character is not modeled after President Obama although the character is African-American.

Roland Emmerich says he wants his film to be like the action movies of the 80s and 90s. It explores the serious theme of American national security. But it’s also pure entertainment.

Critics are mixed about the movie. *The New York Post* says, “You couldn’t ask for a more fun summer popcorn movie.” But *The Chicago Tribune* calls it offensive and overblown.
