听下面一段独白，回答 23 至 25 三个小题。

Most Chinese hotels often provide guests with things like disposable toothbrushes, toothpaste, shampoo and slippers. But, some hotels in Beijing will no longer provide guests with these disposables. They want to ask people to use less disposable things.

Many disposable things are made of plastic. People throw them away after only using them once. It is a kind of waste and is very bad for the environment. Do you know one Chinese person makes as much as 400 kg of waste a year? Most of that waste comes from disposable things. Plastic can take between 100 and 400 years to break down. So the less plastic we throw out, the better. So, wherever you travel, bring your own things and use them again and again.

Today is Mothers' Day, as well as the International Nurses' Day. It's a special and meaning day for my mother and me.

In the morning an old man came to the community hospital to see the doctor. He had a cold. I helped him take the temperature. He was taking the medicine when a boy came. The boy cut himself. My mother and I gave him first aid.

In the afternoon we took part in the volunteer training activities of Wuhan Military Games. 2019 Wuhan Military Games is the largest in history. Volunteers are to provide the best medical service for the players. They are also to answer the questions about the healthcare from the visitors.

I will never forget this special and meaning day.
