#### **A Good Habit, A Successful Life**

Hello, everyone! As we all know, we have to study online because of the outbreak of Covid-19. We are in the face of great challenges from both study and our lives. It's really important to develop good habits.

First, we should have good living habits. Don't stay up late at night. And then we can get up early in the morning. We will feel energetic after a good rest. We should also eat healthy diets and keep exercising to stay healthy. Chatting with our parents is a good way to make us relaxed.

It's also important to develop good studying habits, especially when we study online. We should preview our lessons before class, and go over what we have learned after class as well.

What's more, we must keep a balance between study and rest.

In a word, good habits will lead us to success.
