Dear Tom,

Thank you very much for your trust and sharing your problem during the epidemic. I think it's normal to have these feelings.

Why don't you talk about these feelings with your family. Firstly, You should explain that teenagers should be allowed to manage themselves and have their own circle of friends to improve the communicative skills. Maybe you should do more chores at home and share your online learning experience with your parents to show that you really take an active part in your family affairs. Secondly, why don't you sit down and communicate with your brother? You should explain that you don't mind him watching TV. However, he should let you watch your favorite show. I hope things will be better for you soon.

I am looking forward to hearing from you in no time.

Yours,

Li Hua
